

How to book interruptible capacities in SMCS

Interruptible injection/withdrawal capacity is available only if all firm injection/withdrawal capacity has been sold out.

1. Booking of discounted (Express) Daily Peak Plus capacity

Trade → Express Services → Daily Peak → type in the maximum volume in the field “Express Injection/Withdrawal Claimed Capacity”. Available volume of peak can be seen by moving the cursor on .

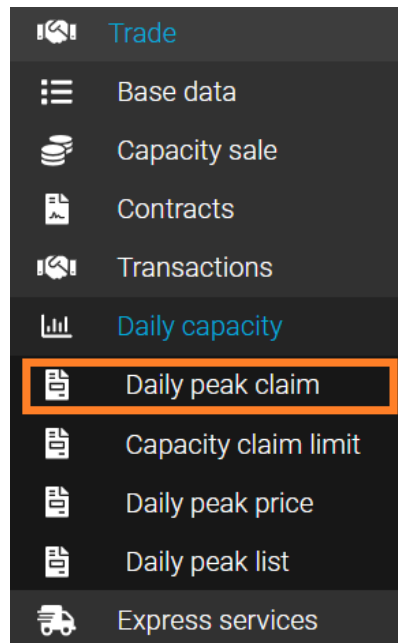

TRADE > EXPRESS SERVICES > DAILY PEAK

Gas day	Injection Available capacity	Express injection Claimed capacity	Injection Capacity	Withdrawal Available capacity	Express withdrawal Claimed capacity	Withdrawal Capacity
2021.02.12.	1 442 644 kWh	960 kWh  Hourly max.: 40 kWh	1 442 644 kWh	2 982 056 kWh	0 kWh  Hourly max.: 0 kWh	2 982 056 kWh

Booked injection capacity price (It will be subtracted from the express budget limit) : 16 HUF

Booked withdrawal capacity price (It will be subtracted from the express budget limit) : 0 HUF

2. Further available firm injection/withdrawal Daily Peak Plus capacity has to be checked.

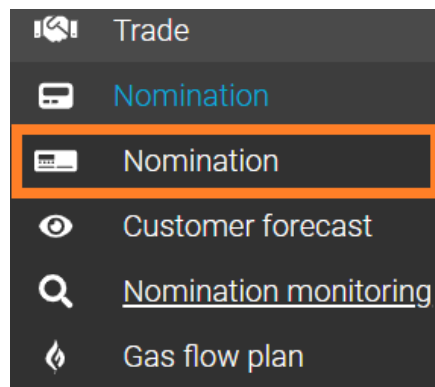

Trade → Daily capacity → Daily peak claim → Set up required period → Choose the contract from drop down list → Available volume of peak can be seen by moving the cursor on  .
In case of further free firm injection/withdrawal capacity is available, System user has to book all before booking any interruptible injection/withdrawal capacity.

TRADE > DAILY CAPACITY > DAILY PEAK CLAIM

Gas day	Injection Available in contract	Injection Claimed capacity	Injection Capacity	Withdrawal Available in contract	Withdrawal Claimed capacity	Withdrawal Capacity
2021. 12.	833 334 kWh	480 kWh 	833 334 kWh	833 334 kWh	_____ kWh 	833 334 kWh 

3. After all firm injection/withdrawal capacity has been booked, System user can nominate on interruptible injection/withdrawal capacity (the maximum volume is equal to the double of contracted firm injection/withdrawal capacity).

Gas day: 2021.02.12. Today Tomorrow After tomorrow 2021.02.14. 2021.02.15.
